MONDAY, JULY 26, 1869.

From the La Crosse Democrat.

RADICAL BLESSINGS!

The above heading is written facetiously, for really there isn't any such thing, but there are things which the Radical party call such, and they try to make the laboring men of the country think that they are. And for that reason we want the attention of the laboring men of the country for just a few moments; especially those who for some cause have heretofore voted the Radical ticket, and those who to-night will take their week's earnings and go to the store and pay double what they should for every article of clothing which the buy.

A vivid idea of one of the great blessings which is granted us by the party now in power, can be gathered from the fact that for the year 1868 our imported goods amounted in value to about $40,000,000. On this amount $20,000,000 were paid in the shape of custom house duties. This, of course, raised the price of goods, imported, just one half; or, to make it still plainer, all imported goods, to the value of one dollar, costs the laboring men who buys them, *two dollars*. But, says the Radical, the poor man should not wear imported goods. Exactly so, he shouldn't, and so he would'nt, were not these duties imposed on foreign goods expressly for the benefit of New England manufacturers, who can thus take the advantage of the laboring classes which the Radical party gives them. Manufacturers, of course, will run their own goods up in the market so as to reach, or nearly reach, the price of imported goods.

This is a part of the immense taxation which the poor people of the country have to pay—for every dollars worth of goods they have to pay *two dollars*.

Now, the Radical will tell you that this high tariff becomes necessary that the duties paid our government may be large. If the duties were but one-quarter as much as they now are, four times as many goods would be brought to this country, and our government would receive as much money as it now does, and the laboring man, instead of paying ten dollars for the cloth to make him a pair of pants and a vest, would have to pay but four or five, as he did in the Democratic days before the war, when tariffs were light, and manufacturers had to take their chances with other institutions of labor, and had no license to rob poor people of just one half they earn.

It is all nonsense for any one to claim that this heavy tax increases the government revenue, for it does not. It kills, to a great extent, foreign commerce. It keeps from our shores foreign ships, which would come hither loaded with the products of the country from which they sail, which they would be glad to exchange for our corn, wheat and other grains, which now bring so low a price in the market, in comparison to those things the farmers are obliged to buy—tea, coffee, sugar, spices and almost all articles of clothing.

Is it any wonder, then, that the question of free trade or low tariff, is being agitated, by most of the leading journals all over the country? Is it any wonder that we hear of free trade leagues springing up all over the country, to co operate with the Democratic party in demanding that this protection for the rich against the poor, be broken down, and that labor have an equal chance with capital to enjoy the blessings of a *free country*.

About the most important and urgent of all political questions, especially for those who labor, is the reduction of tariff. On the present amount of imports, instead of collecting $20,000,000, we should collect but about $10,000,000, and the extra amount which is collected is actually robbed from the poor men of the country, to increase the wealth of Eastern manufacturers.

This is one of the *great blessings* of Radicalism, and one which Democracy desires to remove from the shoulders of the taxpayers who have to carry it. If it is necessary that the poor should thus be robbed to sustain the government, it would seem but fair that the rich should contribute their share; but they do not. Search the country far and wide and it will be impossible to find one single Radical who considers it necessary to tax the rich bond holder, that he may contribute a little to the support of the government. No, the government must be supported, and those who labor must do it, and at the same time pay an interest on the bonded investments of the rich, who in their turn are exempt from taxation.

This is but a tithe of the blessings which the party in power are heaping upon the laboring people and the country. Aristocracy has its foot upon the neck of the poor, and do we wonder that they croak of imperialism that they may have the power to keep it there. Every poor man who enjoys the right of franchise should ponder well this matter ere he again visits the ballot box.

CHLOROFORM—THE THING "LADIES" GET TIGHT ON.

[From the New York World.]

The extent to which the habit of the secret use of chloroform prevails to day among all classes of women, from the inmates of the shameful haunts of Greene street to the belles of the Fifth avenue and the pupils of fashionable boarding-schools, is known to few except the apothecaries who supply the deadly drug. For deadly it is; and, though its poison is sometimes as swift as the cobra's, it is at others slow in its vengeance, reaching through years of misery, but always sure and inevitable.—We hear, with terrible frequency of sudden deaths from chloroform, "taken only to allay a headache;" but we do not hear of the wreck of the brain and the ruin of the nervous system which its habitual use surely brings about. The swiftness with which it produces its dreamy intoxication, and the few apparent traces which it leaves behind, make it a favorite with women who know nothing of its ungovernable force, of its cumulative effects, and of its terribly dangerous nature. Its use is far more to be deprecated than that of alcohol or opium, the effects of which can easily be foretold. Chloroform, on the contrary, is as subtle and sudden in its wayward vengeance as the most treacherous and dangerous of the women who use it. The dose that was seemingly innocuous yesterday, may, if repeated, bring swift and resistless death to day, and, though the penalty should be delayed, it is certain to be inflicted sooner or later. When, a year or two or ago, a writer charged American women with drunkenness, the charge was easily repelled; for the delicate organization of the refined lady instinctively and notoriously shuns the rude grasp of alcohol. The charge that chloroform is largely used by women, is however, lamentably true. It is generally used in ignorance of its nature and ultimate effects, but the sad and disgraceful fact that it is habitually employed to an alarming extent, as an aid to female drunkenness, cannot be gainsaid.

From the Philadelphia Public Ledger.

THE HON. ASA PACKER.

SKETCH OF THE DEMOCRATIC CANDIDATE FOR GOVERNOR OF PENNSYLVANIA.

The Hon. Asa Packer was born in 1806, in Groton, New Lisbon county, Conn., and in 1822, with his outfit strapped in a knapsack on his back, removed to Springfield, Susquehanna county, Pa., and apprenticed himself to a carpenter of that village. On arriving at the age of 21, with his scanty savings he purchased a small lot of land upon the upper waters of the Susquehanna, and settled down as farmer. In 1833 he removed to the Lehigh valley, and, as master of his own boat, engaged in the transportation of coal from Mauch Chunk to Philadelphia. The managers of the Lehigh Coal and Navigation Company, attracted by the energy and industry of Asa Packer, secured his services for the corporation at a liberal compensation, and in 1855, Asa and his brother, R. W. Packer, aided by an uncle, established themselves at Mauch Chunk in the general merchandise business. The cash capital of the firm was only $5,000, but in a short time their business became widely extended, and embraced not only the ordinary transactions of a country store but the erection of locks and dams for the canal, the working of coal veins leased from the Lehigh Company, and at last the working of the Hazelton mines, owned by the Packers. The firm shipped coal to New York and Philadelphia, not only by the Lehigh, but also by the Schuylkill river. In 1850, Asa Packer entered on the work of building the Lehigh Valley railroad, having become the owner of a controlling portion of the stock of a company chartered in 1846, but not a foot of the line of which had been built; in fact, only 17 days of the limit for commencing the road yet remained. Packer, in October, 1851, submitted a proposition to build 46 miles of the road from Mauch Chunk to Easton, and receive his pay in stock and bonds.—This proposition was accepted, and the work, under pressing financial embarrassments, was vigorously pressed to completion, and the entire line was delivered in September, 1855. The success attending upon Packer's exertions to build the Lehigh Valley railroad laid the foundations of his fortunes as a coal and railroad operator, and he is now worth, it is estimated, between $15,000,000 and $20,000,000. In 1865, Packer founded at South Bethlehem a scientific school, called the Lehigh University, and endowed it with a tract of land, 50 acres in extent, and with $500,000 in money, and it is believed he intends giving an additional $500,000, making $1,000,000.

Asa Packer, through his entire career, has been widely known as an earnest, thorough going, consistent Democrat, of the old school. He has been a member of the Pennsylvania Legislature, his term in that body ending in 1843, and a member of the house of Representatives in Congress for the Thirteenth district from 1853 to 1857. At the Democratic national Convention, held in 1868, in New York, he received the entire vote of Pennsylvania as candidate for the Presidency, for fourteen ballots, and was only withdrawn in favor of Gen. W. S. Hancock. The nomination of Judge Packer as candidate for Governor of Pennsylvania is a becoming compliment to a life spent in honest industry, and to a character of blameless purity and unspotted integrity.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

MONDAY, JULY 26, 1869.

Conservative and Democratic Nominee.

FOR SENATOR,

FOR THE NINETEENTH DISTRICT,

JOSHUA PERRY,

OF FRANKLIN.

FLEEING FROM WRATH TO COME.

The ultra Radical journal of this city has snuffed the danger ahead, and has seen, in the "signs of the times," a warning it dares not disregard.

It is now busily engaged in seeking shelter from the storm, the doctrines and teachings it and its party have raised, and which now threatens to sweep them into a well merited oblivion.

They have heard the thunder of old Virginia, and are trembling lest they may share the fate of their friend, Mr. Wells, and be forced to disgorge their ill gotten gains and seek another abiding place. Therefore, they have concluded to take advantage of Gov. Wells' sad experience and are endeavoring, now, to smooth over their past rancour and seek to throw dust in the eyes of our people, by a sudden and complete change of tactics.

For some days past, and particularly so after the result of the Virginia election became apparent, the columns of the *Standard* have been full of hypocritical professions of moderation and conservatism.

Is not this sudden change apparent to any one of the least penetration?

Does any one of common sense, who is at all conversant with the course of that paper, or who is acquainted with the character of the man who owns and controls the establishment, and the class of men that contribute to its columns, believe this change, from the most proscriptive ultra Radicalism, to be sincere and well meant?

Can one believe in the professions of a journal, in regard to honesty, truth and fair dealing, when the man, who owns and controls, completely, the paper, bears such a character as Milton S. Littlefield possess.

A man who had to absent himself from this city last year to avoid being brought before a Committee appointed by the Legislature to investigate alleged frauds and corruption; and before which it was proven that he received a sum of money to engineer a railroad bill through that body; and it is charged and universally believed, that he used the money, or a portion of it, in corrupting and bribing members? And who is charged by the Florida newspapers (and upon the strongest kind of evidence they say) with being instrumental or chief mover in having a bill fraudulently altered in order to advance a pecuniary speculation, after it had passed the Legislature of that State! Numerous other charges of disreputable and dishonorable transactions are laid to the door of General Milton S. Littlefield owner of the *Standard*.

It would take up too much space to give a detailed account of Littlefield's manipulations and manœuvres, dishonored drafts, rum mills publicly kept, and other disgraceful things. He is and has been all the time, the notorious head centre of the infamous "Ring" which controlled our last General Assembly.

Is a newspaper owned and controlled by a man capable of such things as are charged upon Milton S. Littlefield, worthy to be believed? Can it have the least shadow of a claim to the confidence and respect of our people? Is not a man like the owner of the *Standard* likely to surround himself with a crew of minions and hirelings ready to do his bidding, no matter what it may be, and will he not prostitute his paper to forward the intrigues of the "Ring" and his other nefarious speculations and peculations.

As to the nominal Editor he is an obscure individual, of whom but little is known in this community, and of whose character we can only judge by his associations. He is, we understand, for hire, and any one, placing sufficient value upon his services as to pay for them, can get them to do anything or to advocate anything. 'In regard to the other understrappers, they are in the same category, and of whom it is sufficient to say, to show them up in their true colors, that they belong to Littlefield. So much for the minions.

From the commencement of the war, down to the latter part of 1863, what more ardent and extreme Southern war journal than the *Standard* could be found in the length and breadth of this whole section? But when the fortunes of the Confederacy commenced to wane, the *Standard* commenced to grow loyal by degrees to the "best government the world ever saw."

After the surrender at Appomattox Court House, what paper was more violent and bitter in its denunciation of the purest and best men in the South—men that were loyal to the United States, when the *Standard* was supporting the Davis administration.

Has it not abused and villified such men as Wm. A. Graham, B. F. Moore and others, because they could not be induced to endorse such a corrupt and unscrupulous politician as W. W. Holden? Has it not maligned and slandered our best citizens because they would not enter into secret midnight organizations with ignorant negroes, and low, bad white men, to brow beat and swindle their neighbors out of the little the war left them, and because they refused to assist in turning the State over to the tender mercies of a few rascally and designing political adventurers?

Did it not advocate the war and make appeal after appeal to the young men to volunteer—and when the contest ended disastrously to the Southern arms, did it not basely and cowardly turn against the very men it had influenced to take up arms?

What paper more violently opposed negro suffrage until it saw that political capital could be made by advocating it? Did it not defend the perpetrators of the celebrated penitentiary swindle, after the fraud had been proved beyond the shadow of a doubt, and hold the perpetrators up as good, loyal honest men and patriots? Is it not the organ of the Ring, and did it not earnestly advocate all the measures, and defend and endeavor to smooth all of the barefaced swindles of that thievish clique? Did it not offer a gross and dire insult to the noble women of our State in its editorial columns, in an article entitled "Work"?

Has it not, we ask all fair minded and truthful men, been one of the most bitter, lying and vindictive Radical sheets in this country, not even in qualities aboved named exceeded by Forney. Did it not stand by and hurrah for, and wish Wells all kind of success in his campaign in Virginia. But now that Wells is beaten and the skies look dark to the ultra Radicals, it wishes to claim affiliation with the party which will sweep this section, in the next election.

If it were required, we could pile proof upon proof to show the truth of the few facts which we, for the lack of space, have so briefly sketched. Yet, in spite of all this, the organ of the ultra-Radical party has the impudence and brass to come out and talk about moderation, mildness, conciliation, &c. No, no, Mr. *Standard*, "You have chosen your bed and must lie on it." The "handwriting is on the wall" for you, the sentence has been pronounced, and all of your deceitful cant and cringing hypocrisy can avail you nothing in staving it off.

The good and moderate people of the State, white and colored, forgetting past issues, are heartily tired of you and your carpet bag crew, and intend uniting, like the people of Virginia, to hurry you all out of this State to the tune of the "Rogue's march."

The oppressed tax payers and the true lovers of North Carolina interests, white and black, regardless of former differences, are sick and tired of the machine-like system of fraud and corruption, and intend putting it down.

Then, hand in hand, we will go to work to build up the material interests of the State, and have a just, honest, free and well-ordered administration of the State government.

THE STATE CREDIT.—It is quite a mystery, why the *Standard* is so jubilant over the little $3,000,000 thrown overboard by the late decision of the Supreme Court; and why it glorificates that our State debt is, now, only $35,000,000. Only thirty five millions dollars! Widows and orphans! young men and maidens! especially tax payers, think of it.

Only thirty five millions dollars! But it is, really, more, as can be shown; while it is almost mathematically demonstrable that the tax levied this year, heavy as it is, will barely pay the interest on the old State debt and meet the current expenses of the State government, and the January and July interest on the State debt, with a slight exception, yet unpaid.

NIAGARA CRUMBLING IN.—A letter from Niagara Falls states: "The change in the Falls this spring is the greatest that has been witnessed probably by any one generation. In the Horse Shoe Fall, where the green water is seen, the rock has crumbled away to the depth of about thirty five feet, on the side nearest Goat Island. The circular appearance of the Horse Shoe is now changed, and is more in the shape of a triangle than anything else. The American Fall has also met with some alteration, which old habitues notice this season; more particularly is it seen on the site toward Luna Island, and were a pointed projection of rock to give way, the appearance would change it to that of a horse shoe. It is estimated by competent geologists that some 150 tons of rock must have given way from the horse shoe alone. The beauty of the falls is not in the least marred, but rather enhanced, and old habitues seem to like the falls this year much better than ever.

A BOY LIFTED BY A KITE.—The Vicksburg *Times* of the 10th instant relates the following incident: "A young lad at Lake Station, Mississippi, had a very large and beautiful kite presented to him, about six feet by four in size, which he attempted to raise on the 2d instant, just as the wind was increasing and a storm was threatening. The wind drew the kite so heavily as to drag the boy along also. To prevent losing the favorite, he wound the cord around his body. At last the gust bore kite and boy along in the rapid air currents. The boy seemed to be about one hundred feet above the earth, and the kite five times that distance. At last the young kite flier caught in the top of a tree, and was suspended seventy-five feet above the ground. A flood of rain came on, slackening the line, abating the wind, and allowing the little sufferer to be rescued. He was found to be unconscious, and so bruised and marred as to be scarcely recognized; but was restored the same evening, and is now doing well."

ROUND THE WORLD.—The fares, in gold rates, for a journey round the world, visiting the most important cities, it is asserted, will amount to $1,554, made up of the following items: New York to San Francisco, $100; San Francisco to Shanghea, $300; Shanghae to Hankow and back, $100; Shanghae to Hong Kong, $75; Shanghae to Canton and Macao and return, $30; Hong Kong to Calcutta, by way of Ceylon, $250; Calcutta to Delhi, (second class) $24; Delhi to Allahabad, $10; Allahabad to Bombay, $25; Bombay to Suez, $300; Suez to Marseilles to London, $20; London to New York, $130. A liberal estimate, however, of the fares will bring the charges up as high as $1,800 to $2,000. Add the cost of living abroad to the charges of a first class hotel on shore.

A NUT FOR IRISH RADICALS.

The desperate efforts made recently by a few renegade Irish to seduce their fellow-countrymen from the Democratic party, have been already thoroughly exposed in the columns of the *Record*, and their contemptible trickery and shameless mendacity has failed to deceive even the most credulous. Utterly unscrupulous and unprincipled, they never hesitate to falsify facts and to pervert history in the prosecution of their infamous designs. They have had the effrontery to declare that the Radical party was the best entitled to the political support of their fellow-countrymen, as the policy of that party was inimical to English interests, and thus indirectly if not directly, friendly to the cause of Irish independence. Now, as the English press is a competent witness in the case, and not likely to be deceived, its utterances are certainly entitled to consideration. We have before us a very late number of the *London Journal*, in which we find a complimentary sketch of Mr. Motley, the new United States Minister to the Court of St. James, who is welcomed as a friendly ambassador from a friendly nation. But we shall let the *London Journal* speak for itself:

Our cousins across the Atlantic may be pugnacious, and much accustomed to the use of "brave words." How can they help it, being chiefly descended from the most combative people on the face of the earth? But we think that in their choice of Mr. John Lothrop Motley as their representative at the British Court they evinced anything but a desire to "beard the lion in his den," or complicate any existing differences by a display of menace in the offensive intrusion upon us of a man of extreme opinions. Mr. Motley belongs to the Republican division of American politicians. It is the Democrats who are most prone to indulge in violent language against the country. The Republican party always, from principle, affinity and tradition, has been the most friendly disposed towards us and rather inclined to narrow than widen any fortuitous international breach. Mr. Sumner's intemperate speech has been disclaimed by them, and a general surprise expressed that his utterances should have excited any commotion outside the very limited circle of his admirers. The auspices being thus conciliatory, the new minister is welcomed to us as much for himself personally as for his high mission, for he brings with him a reputation and friendship to which we are no strangers. In fame, sympathy and race, he is almost one of us.

There is the whole case in a nut-shell.—"The Republican party," as the *Journal* says, "always from principle, affinity and tradition, has been *the most friendly disposed towards us.*" What have the Irish Radicals to say to this? Were any further evidence required to refute their loud-sounding claims of the Radical party upon the Irish vote, this testimony from an English organ would be sufficient. It may well extend a cordial greeting to the representative of that party, which on more than one occasion had shown its friendly feeling towards the British Government.—Old England and New England are natural allies, and while the Radical party remains in power the alliance will never be rudely broken. No wonder that Irish Orangemen are invariably found in its ranks.—*Metropolitan Record.*

A DESERVED REBUKE.

The Philadelphia *Age* relates the circumstances of a most severe but righteous rebuke administered a few weeks ago by Judge Chase, sitting as Chief Justice of the Supreme Court, to Attorney General Hoar. The way of it is stated to have been this: Hardly had Hoar prostituted the position which a Stanbury and an Evarts had virtuously and vigorously filled, before it became his duty to appear in the Supreme Court of the United States. In the progress of a speech by him, the venerable Justice Nelson inquired: "What is the page of the authority you are quoting, Mr. Attorney General?" To which the man whom ex General Grant gave a Cabinet place in exchange for a library, replied: "May it please the court, I decline to be interrupted in my argument." Whereupon the Chief Justice, assuming upon his younger shoulders the affront directed at his associate, and incidentally reflecting upon the whole bench, brought the Massachusetts Attorney to his knees at once by saying: "Mr. Attorney-General, you will cease in your argument for the present. This Court, as you will learn, when you have become used to its amenities, reserves the right to question at any time, any of its counsellors, on any point whatever. Your rejoinder to the question of my associate is inadmissible; and, when you have apologized to the Court for language which we must say was never heard before, you may proceed, but not until that is done." Whereupon the legal bully collapsed and meekly begged pardon, which it pleased the court to allow. —*Louisville Courier-Journal.*

MARRIED FOR A WEEK.—A German, named Carl Schell, married a young girl, just from the Fatherland, at Omaha, some three weeks ago, in a most peculiar manner. He purchased a pair of ear-robs, put them in her ears, and informed the young lady that "this little ceremony constitutes a marriage in America." After a week had passed he took them out, and informed her of another piece of news, viz: "this little ceremony constitutes a divorce in America."

Various rumors are afloat in Memphis in regard to the death of Collier, who shot Captain Haynes at Marion, Arkansas, a few days ago. It is said that he was arrested by a party of colored men and killed, while others state that he has escaped from the State. All is quiet there now.

STATE NEWS.

His Excellency Gov. Holden has pardoned Frontis Simonton, convicted of stealing five dollars, and sentenced to six months imprisonment, at the Spring Term '69 of Iredell Superior Court. He has also pardoned Albert Happoldt, convicted of larceny at Spring Term of Rowan Superior Court and sentenced to six months imprisonment, and Henry McCanly, convicted of killing a hog and sentenced for one year.—*Standard.*

This looks like a sort of general jail delivery of convicted felons, that they may be out in time for the August elections.

A movement is about to be inaugurated, at Weldon, to raise funds for building an Episcopal Church at that place.

THE RAISING OF THE GUILFORD.—Work upon the raising of the engine Guilford is progressing, but at this time this monster still ornaments the bed of the Roanoke.—Arrangements are about perfected for the hoisting of it, however, and we may soon see the Guilford mounted up on *terra firma* again.—*Roanoke News.*

SYMPATHETIC.—A gentleman informs us that on yesterday morning the female mocking bird, confined in a cage, suddenly died; whereupon the male looked sad, sang a melancholy air, and immediately fell dead by the side of his partner.

Sympathetic sonster! your constancy should teach young swains, how sweet it is to die for one's early love.—*Wil. Star.*

AS IT SHOULD BE.—The colored voters of Warren County have joined with the whites in the nomination and support of well qualified and responsible persons for the Township officers throughout the country. This is as it should be everywhere.

DON'T RUN UP STAIRS.—This practice, so often exercised by young people especially, is said to be ruinous to health. An eminent physician is reported to have once said that he would not go up stairs faster than a walk if the house was on fire and he had valuable property to save. Much walking up stairs is especially injurious to women, and frequent running up stairs is a sure ticket to heart disease.—*Exchange.*

There is another common practice, that of "jumping the rope," by girls, that is said by experienced physicians to be injurious to health and often followed by deplorable consequences.

[From the Wilmington Journal.]

SOMETHING MORE ABOUT THE HEROINE OF SMITHVILLE.—It gives us pleasure to publish the following communication in regard to Miss Kate Stuart, the heroic young lady who so devotedly periled her own life recently to save the daughter of Capt. Hunter, of the steamship Fairbanks, from a watery grave. We agree with our correspondent that her name should be placed beside those of the other heroic women of the South, and it gives us more than pleasure to add this noble mite to the record of our history. The names of such women should ever be held in remembrance:

Messrs. Editors:—The writer of this article remembers Miss Kate Stuart,—not by the recent mention of her noble act in your paper, but as the "ministering angel" of the sick soldiers in the hospital at Smithville during the war.

She is one of the many noble women who did not cease their offices of kindness when the yellow fever and small-pox raged there. She came day after day, accompanied by her good mother, bringing delicacies for the sick. She appeared to us a very sunbeam as she passed through the wards where we lay. When the wounded were brought from Fort Fisher she met the transport and assisted the Surgeon in his duties, making more comfortable the living, and soothing the last moments of the dying, and when the convalescent were taken North to prison, gave them the last *gold dollar* she possessed.

Not only by the soldier will she be remembered, for her acts of charity, but by the poor of her native town.

Her name is worthy a place of History's most honored page, by the side of other noble women of the South.

Her acts of courage, tenderness and direction are so unobtrusive, so carefully shielded by the intensity and delicacy of her love of the good and true, that the perfume of her heroic life is confined to the humble limits of her native town. After all, it is not much the praise of man can add to her fame in this world, but in Heaven may her reward be *great* and *sure*.

A FRIEND.

Smithville, N. C.

A CHINESE PRODIGAL.—The China papers report a curious and touching scene which lately occurred in the Shanghae mixed courts. A dissolute prodigal, having a chain around his neck, to which his hands were fast, was brought up by his father. The parent, a very respectable looking man, declared he could make nothing of the prisoner. He had tried all means to cure him of his propensity for smoking opium, but without effect.—If he gave him money, it went in opium; clothes were at once pawned to satisfy his craving. Latterly he had been chained up in a house to see what effect that would have; but his appearance on that occasion was because he had broke out, and had been picked up by a policeman. In fact, the father declared that he would be glad if the court would take him in hand and give him a severe punishment. The Judge advised him to give his son another trial, and added that, if after one punishment he was still incorrigible, Chinese law would permit decapitation on the consent of the father.

RAPID SETTLEMENT OF THE WEST.—The records of the General Land Office show that in twenty-four land offices in Minnesota, Wisconsin, Kansas, Nebraska, Dacotah, Idaho, Montana and Utah, during the month of June, there were 800 cash entries of land, covering an area of 108,804 acres, and 1,575 homestead entries, covering 176,597 acres—making a total of 2,175 entries and 285,481 acres. During the quarter ending June 30 there were 2,191 cash entries, covering 316,900 acres, and 3,939 homesteads, covering 454,846 acres—making a total of 6,130 entries and 771,746 acres. The cash receipts for the quarter were over half a million dollars.

THE NATIONAL INTELLIGENCER.—A rumor is current, and some who profess to be knowing say it is well founded, that a ready writer of this State, whose name is pretty familiar to newspaper readers, backed by an Eastern capitalist who has achieved sudden political notoriety, is soon to revive and start upon a new career the old *National Intelligencer* of Washington. The *Intelligencer* was formerly known as the organ of Presidents.—*Cincinnati Gazette.*

THE weather at Raleigh, N. C., as indicated by the Thermometer at the office of the North Carolina Land Company, Tucker Hall, Monday, July 26th:

9 A. M., 78. 3 P. M., 84.
12 M., 82.

TROOPS COMING.—We understand that Company B, 8th regiment U. S. troops will leave Goldsborough for Raleigh, on Wednesday next.

NEW PAVEMENT.—In addition to the improvement on the streets of the city, in the way of new pavements, heretofore noticed, we may mention that Mr. Grimes is having the side walk from the Yarboro' House to the old Cape Fear Bank building relaid with substantial bricks, which adds much to the looks and convenince of that part of Fayetteville street.

THOSE BRICKS.—By invitation we inspected this morning, a quantity of the pressed bricks, made by Mr. George T. Brook, at his Brick-yard in the vicinity of the City, for the front of the new store of Messrs Upchurch & Dodd, on Wilmington street. They are neat specimens, smooth and compact, and very little, if any, inferior to those imported from other points at much higher price. We were not aware, until we saw these bricks, that any attempt at manufacturing them here had been made, although we had expressed the opinion that they could be made here of as good quality as they could any where else.

THE WORK GOES BRAVELY ON.—The new buildings of Messrs. Upchurch & Dodd, and of Mr. J. N. Bunting, on Wilmington Street, are going up with astonishing rapidity. Bryant Lama, the Contractor, has shown that he knows how to work, and to have work done. We are informed that he had contracted with Gattie to do the brick work of the new Market House, but that Prarie, for some cause, annulled the arrangement and gave the work to another, after Lama had commenced.

LAGS.—The work on the new market house seems to drag. There is nothing like life and activity apparent among the operatives now as at first. What's the matter? The new cellar on Wilmington street has been dug out, and left the mouth of the old well there sticking out about seven feet. Up with the walls!

RAIN.—The fine rains of yesterday (Sunday) afternoon and night, have infused new life into vegetation, and has had consequently a revivifying effect on animal life, especially of laboring animals.

Now is a fine time for sowing Rutabagas, Turnips, and, no doubt, all sensible farmers intend to raise a crop of rutabagas, will avail themselves of the present season to put the seeds in the ground. It would be a good policy to make a sowing, also, of Dutch folk white, or of purple-top, for winter use, as the season is so propitious. Sow in hills, in rich ground, plowed deep, and be sure to thin out to six inches distance.—That's the way to make turnips.

PUBLIC ADMINISTRATOR APPOINTED.—This morning, J. N. Bunting, Probate Judge, tendered the office of Public Administrator for Wake County, to S. D. Harston, Esq., a merchant of our city, who accepted the same, and gave his bond and entered upon the duties of his office.

RECEIVED.—Blackwood's Magazine, for August, with its usual entertaining miscellany.

NEW ECLECTIC.—"THE LAND WE LOVE"—includes the story of "Little Barefoot," at satisfactorily, and presents many eclectic articles of an interesting character.

THE LITTLE CORPORAL, THE RIVERSIDE MAGAZINE, and YOUNG AMERICA, are all filled with the sort of reading calculated to amuse and instruct the young folks.—Every parent ought to subscribe for one of these for the children.

KOSKOO, the *great Liver Invigorator, Blood Purifier, and Renovator*, prepared by Dr. J. C. Lawrence, the celebrated Physician and Chemist, is a SAFE, PLEASANT, and RELIABLE remedy, for the PREVENTION and CURE of all diseases caused by A TORPID LIVER, IMPURE BLOOD, DISORDERS of the KIDNEYS, DEBILITY of the NERVOUS SYSTEM. It REGULATES the SECRETIONS, ERADICATES HUMORS or TAINTS, restores lost or wasted nervous power, and at the same time *builds up and imparts tone and vigor to the whole system.*

We are anxiously awaiting the report of the Committee on Schedule, appointed at the recent Convention of Railroad men, at Columbia. If there is not a change in the present schedules of the Railroads connected with Raleigh, in a short time, we shall commence the issue of a morning and an evening edition of the *Sentinel*, as intimated some weeks since. We have only delayed doing so, on the constant assurance from those who ought to know, that a change will be effected, and that at an early day.

THE COMET—RECEIVED FROM E. J. HALE & SON, PUBLISHERS, NEW YORK.—This is truly a remarkable book, presenting many entirely new and original views, upon interesting and important topics. They are well and ably discussed, developing useful learning upon a great variety of subjects.

The first part treats of the Creation, and the World before the Flood, and philosophically examines the following themes, in separate chapters: The nature of Comets, the Earth a Comet. The "Adamland" different from the Earth as it now exists. Its form—its winds, rains and dews, its soil—its natural history and social state. Primeval Man—his size and longevity. Primitive Civilization, with the arts and sciences. The population of the "Adamland." Eden and the Garden, and where they are. The "Adamland" doomed, and removal designed. The Ark, its exact tonnage and freight—where it was built, to what point it was carried, and how and by what means, with its velocity and the incidents of Noah's voyage. Reign of Confusion since the Flood.

The Second part, from every source gathers proofs of the Deluge, as still plainly and abundantly existing. Physical geography of the land and sea, exhibiting the present peculiar shape of the earth, with its continents and islands, mountains and hills, slopes, plains and other features, furnishes irrefragable testimony. The ancient icebergs and glaciers. The slates, limestones, and sea-shells—the extinct mammoths, and other fossils, animal as well as vegetable.—The sands, and even the soils, as read by Geology and Agricultural Chemistry. The traditions of the whole human family, and the universal dispersion of the living and the dead, are all severally cited and carefully examined, as sure and reliable witnesses of that great event.

The Third part is devoted to Prophecy and Revelation and singularly untolds the grand changes that are yet to occur in the physical form of the Earth, preparatory to the millenial period; and the happy condition of all created things that will be induced thereby.

The style of the work is good, and its discussions are conducted in so plain a way as to adapt it to all classes of readers. It should receive an extensive circulation and find a welcome in every home. For sale by Alfred Williams, Bookseller and Stationer. Price $2,25. Sent by mail on receipt of price.

PERSONAL.—We learn that the Hon. E. A. Rollins, late Commissioner of Internal Revenue, is now acting as President of the National Life Insurance Company of the United States of America, at the Campany's Branch Office, in Philadelphia, during the temporary absence in Europe, of the President, C. H. Clark, Esq. Mr. Rollins has been an active member of the Board of Directors of this Company since its organization, and in giving to its interest the benefit of his personal co-operation, and the advantages of his enlarged experience and extensive acquaintance, we confidently look for a renewed impetus to be given to the already unprecedented progress of this great National Institution.

See advertisement of P. F. Pescud, General Agent.

BIG TREES IN TEXAS.—The large Courthouse of Navarro County is said to have been covered with shingles made from a single cedar tree four and a half feet in diameter. The oaks, pecans and cedars of that section of the country attain an immense size. A pecan tree in Navarro county, on the banks of the Trinity, measured twenty-three feet in circumference. The cedars are often more than 100 feet high, producing seven rail cuts, each 10 or 12 feet long, to one tree.—*Galveston News.*

Among the public officers recently removed by the President is the widely-known Elihu Buritt, the "learned blacksmith," who has for several years held the place of consul at Birmingham England.

The business of the Manchester, N. H., Locomotive Works has increased three fold. They are now turning out five to six locomotives per month, employing over four hundred hands. The Company will build this summer a boiler shop 200 by 52 feet.

The New Jersey Court of Pardons at its recent session, pardoned forty convicts, four of whom are murderers. Others are highwaymen, burglars, and criminals of other grades, who were serving out sentences of from twenty to thirty years' imprisonment.

It has been reported that the Fenian Halpine, now imprisoned in England, will soon be released. The Government has not received any late advices regarding his case, but Secretary Fish has ordered Minister Motley to renew his efforts for his release, which were abandoned when Reverdy Johnson was relieved.

LIBERAL.—One citizen of Richmond has subscribed $500 and several others $100 each to the destitute families of those killed by the Vauxhall disaster.

Edward Quinton, late a well known United States detective, and now proprietor of a hotel in Cincinnati, was stabbed severely, and it is feared fatally, on Wednesday, by a raftsman named Jerry Burns.

An opinion is fast gaining ground that bonds issued to railroads in Tennessee since the war were illegally issued, and it is understood that a railroad official intends to contest the right of the State to collect interest upon them.

M. Mercier, formerly French Minister at Washington, and now Ambassador at Madrid, is to be transferred, says the *Monitour*, to St. Petersburg. M. Berthemy, French Minister at Washington, now absent on leave, the same authority states, will replace M. Mercier at Madrid.

It has been remarked, maliciously of course, that the edges of nearly every book in Victor Emmanuel's private library are uncut.

A force of several hundred men are employed on the foundations of the new Sprague cotton mill, at Augusta, Maine, which is to be the largest in the State.

Monday Midnight Dispatches.

FROM WASHINGTON

WASHINGTON, July 24.—The President disapproves the finding of the Court Martial at Galveston, in the case of Lieut Garreteon, of the 17th Infantry, and restores Garreteon to duty.

Collector Casey, of New Orleans, writes Boutwell, enclosing a letter from William McCleery, regarding Coolie importations, and asks instructions. Boutwell replies that McCleery is in error in stating that the Act of February 1862, forbidding American citizens from engaging in the Coolie trade has been abrogated. On the sixteenth of January 1867 a resolution was passed unanimously by both Houses of Congress, expressing the abhorrence of the people of the United States for the Coolie trade, in conformity wherewith Secretary McCulloch addressed a letter to the Collector of Customs at New Orleans, a copy of which Boutwell encloses to Casey. Additional article five, to the treaty concluded the 28th of July last, and now only waiting Chinese ratification, reprobates any other than voluntary emigration, and makes it a penal offence to take Chinese subjects from China without their free consent. The Department state by circular, January 17th, 1867, addressed to Ministers and Consuls of the United States, directs that Consuls at every port where Coolies may embark be required to certify, after full examination, that such embarkation is not forced or procured by fraud, and requires that such Ministers and Consuls use all their power and influence to prevent and discourage the Coolie trade. Such being the facts, Boutwell instructs and directs Casey to use all vigilance in this, as Boutwell terms it, "new modification of the slave trade."

Revenue to-day half a million.

Bassett, the Minister to Hayti, gives a gloomy account and wants a war vessel to protect American interests. Salnave is at the head of an army in the South but the revolution in the North is not even checked. A dollar in gold is worth seven hundred in currency.

Sumner writes approvingly of the present Cuban policy, and urges its continuance.

The telegraph to Duxbury will be completed to-day. The land and ocean lines will be spliced Monday.

SAN FRANCISCO, July 24.—The Congressional Committee of Ways and Means depart eastward Monday. Senator Hendricks was enthusiastically received by Democrats and serenaded

Special Notices.

"Fresh as a Maiden's Blush" is the pure peachy Complexion which follows the use of Hagan's Magnolia Balm. It is the True Secret of Beauty. Fashionable Ladies in Society understand this.

The Magnolia Balm changes the rustic Country Girl into a City Belle more rapidly than any other one thing.

Redness, Sunburn, Tan, Freckles, Blotches and all effects of the Summer Sun disappear where it is used, and a genial, cultivated, fresh expression is obtained which rivals the Bloom of Youth. Beauty is possible to all who will invest 75 cents at any respectable store and insist on getting the Magnolia Balm.

ÆTNA

LIFE INSURANCE COMPANY,

JANUARY 1ST., 1869.

Assets $10,462,531,75.

Amount of Income 6,227,071.

SURPLUS OVER LIABILITIES 2,675,999,48.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

SPARKLING CATAWBA SPRINGS,

CATAWBA COUNTY, N. C.

THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.

Being situated in the northwestern part of the State, in a country remarkable for its beauty and healthfulness—these, together with the virtue of the waters, make it one of the most desirable watering places to be found.

The MINERAL WATERS of these Springs are the White and Blue Sulphur and Chalybeate or Iron, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility dyspepsia, rheumatism, &c.

The proprietor having spent a large amount in additional buildings and improvements generally, these Springs are now in a fine condition, rooms large and pleasant, and good cottages containing from two to six rooms each, well arranged for either large or small families.

Good TEN PIN ALLEYS, BILLIARD TABLES and other amusements.

FINE BATH HOUSES, for Pool, Pinnge or Shower Bath, Sulphur Baths Hot or Cold.

A GOOD BAND OF MUSIC

Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.

Having secured the services of Mr. J. N. CARTER, of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.

The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Springs' depot, every morning, (Sundays excepted,) in connection with the North Carolina Railroad, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well-shaded road to the Springs—a distance of six miles.

As an inducement for families and parties to spend two months or more, I have concluded to put board down at the following low rates:

BOARD:

For one single month,	$50 00
For two or more months, $40 per month, or at that rate.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are of a truly marvellous character. Inveterate cases of Scrofula, where the system seemed utterly given up to corruption, have yielded to this compound of anti-scrumous virtues. Disorders of a scrofulous type, and affections which are merely aggravated by the presence of scrofulous matter, have been radically cured in such numerous instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be uniformly deposited in the lungs or heart, or tumors formed in the liver. These facts make the

QUESTIONS ANSWERED.

FROM THE GERMAN.

Heart, I'll ask thee a question;
Come, tell me then, what is love?
Two souls with thoughts in common,
Two hearts in accord that move.

And tell me whence love cometh;
It comes—and it is here!
And tell me how love waneth;
Of that hath love no fear.

And when is love the deepest?
It's deepest when most still.
And what is loving purely?
Forgetting self and will.

And when is love the richest?
It's richest when it gives.
And tell me how love speaketh;
It speaketh not—it loves.

The Age of Progress.

We publish to-day, the first scheme in the sale of Real and Personal Estate—a Company chartered by the last Legislature, with a capital of one hundred and thirty thousand dollars, and with power to increase that amount to five hundred thousand dollars. An examination of the charter satisfies us that the Company is pursuing a legitimate business; they are empowered to "dispose of Real and Personal Estate in *any mode or form* they may deem best," and "all laws, or clauses of laws, coming in conflict with said charter are hereby repealed." This is plain and unmistakable English, and we have no doubt the transactions of the Company will prove beneficial to the property holders of North Carolina. For example: Mr. A. owns a piece of real estate which he wishes to dispose of. He throws it upon the market, and fails to get a bid that would warrant him in making a deed. He then places it in the hands of the North Carolina Real and Personal Estate Agency, at a fair valuation, and the property is sold by chance—the owner gets his price—the Company a fair and reasonable compensation for selling—and some poor man, *for two dollars*, comes in possession of a homestead which, under any other circumstances, he would not have owned.

In fact, we do not view the Company as a Lottery—it is what it purports to be, a simple Agency for the sale of property, for its true value, which, otherwise would be sacrificed.

We refer our readers to the advertisement—the splendid real estate offered, and the other rich prizes, amounting in all to ninety thousand and one—and the reader will perceive, by the simple rule of division, that there is one prize to every twenty-four tickets.

The General Agent of the Company has given us a call, and assures us, that the success of the Company is no longer a problem. In thirty-five counties through which he has just traveled, he represents the people as being enthusiastic in favor of it—both as to the investing, and the placing of property in the hands of the Company for sale. He represents that already, before the first grand drawing has taken place, applications to sell, amounting to half a million dollars, are on file in the Secretary's office.

We learn from the Raleigh papers, that the exhibitatory drawing which took place in the city of Raleigh, on Saturday last, passed off to the decided satisfaction of a large audience assembled in Tucker Hall to witness it.—*Wil. Post.*

One three cent stamp must accompany every order. All tickets will have the seal of the Company and signature of the Secretary.

☞ We refer to any Merchant, Banker or other gentleman of standing in the city of Raleigh.
